

Ushuaia Extension: Scenic Adventures at the “End of the World”

This three day extension takes you to an unforgettable setting at the Southern tip of Argentina known as “*Fin del Mundo*” (End of the World). The beautiful city of Ushuaia is located on the island of Tierra del Fuego, known for its spectacular views of the Andes Mountains and the Beagle Channel which borders Chile. Originally established as a penal colony, it is now famous for its scenery and is a popular gateway for travelers to Antarctica. It is home to glaciers, forests, incredible wildlife and restaurants where you can take in the views while enjoying the best Argentinian seafood and wines. Our guide Dani Catania ([see his bio here](#)) is as passionate local guide with more than a decade of experience and he will show you all the spectacular vistas in this region while filling you in on the unique ecology, history and culture that make Ushuaia so special.

Accommodations

We stay at the Alto Andino hotel, where you can enjoy modern rooms while taking in views of the Martial Mountains and the turquoise waters of the Beagle Channel. Enjoy breakfasts in the Bar Mirador, which features a magnificent terrace with 360 degree views of the city.

Day 1

After your arrival and airport transfer, take some time to relax at the hotel before we embark on a two hour walking tour of the city. Enjoy a complimentary welcome cocktail or coffee at a traditional Argentinian bar, and then we will have a freshly made dinner and drinks in the home of our guide.

Day 2

After breakfast at the hotel, we leave at 9am to begin our adventures. Our first visit is to Estancia Harberton, founded by missionaries in 1886. This scenic farm is surrounded by beautiful forests, valleys, peat bogs and the famous “flag trees”. We tour the historic property first and then we visit a local museum to learn all about the marine species that call Tierra del Fuego home, including whales, dolphins and seals. A picnic lunch is on the agenda before we board a Zodiac boat for a 15 minute ride to Isla Martillo. This island is home to thousands of

Magellanic Penguins and other ocean birds including Gentoo Penguins, Cormorants, Petrels and Chimangos. We will walk amongst the penguins for an hour to view the different colonies and nesting habitats. Return to the hotel around 4pm and rest before dinner at the home of our guide.

Day 3

After breakfast at the hotel, our activities today begin at 10am. Enjoy an easy hour long hike between forests of Lenga and Guindo trees, as we stop along the way to take in views of the Martial Mountains, the Southern tip of the famous Andes Range. Following the first portion of the walk, we will enjoy a picnic lunch overlooking views of the Beagle Channel. Afterwards we continue our hike, and return at 2pm so that we have time to relax before your airport transfer.
